SKILLS

- D. S. A.
- Java
- SDLC
- communication skills
- OOP
- DBMS
- OS
- SQL
- Computer network

FAMILIAR

- Front end
- My-SQL
- React js

WORKEXPERENCE

Training and Internship

Full-Stack Certification | Skill UP by Simple learn

- Comprehensive understanding of frontend and backend design enhances user experience and quality assurance in online service maintenance.
- Applying acquired skills, I resolve interface issues and participate in collaborative code reviews to ensure clean application design.
- Expands knowledge of Computer Science and Engineering with a strong emphasis on attention to detail and collaborative implementation.

Java Certification| Great Learning Academy

- Attained knowledge about core and advanced Java during the training period.

Achievements

- Attained 100days coding badge on Leetcode Got a badge for consistently solving problems for 100-day.
- Built a strong foundation on OOPS and SQL Concepts.

Others | Learners Skill India

- Six Month Work as a Customer Support Executive of telesales in Reebok Company.
- Two Year Work as a Computer Technician in HP World, Aligarh.

Projects

- **User authentication Using Mern Stack**
I developed a user authentication system utilizing the MERN stack (MongoDB, Express.js, React.js, and Node.js). its help me to know interaction between the frontend and backend, focusing on handling authentication operations and securely managing user data. I explored techniques such as hashing passwords, user session management, and connecting to a database for verifying credentials.
- **Online Service Management System(OSMS)**
Our web-based online service management system efficiently organizes gadget/electronics inventory, streamlines product testing for replacements, and enhances performance. With frontend development best practices, we craft user interfaces using HTML and CSS, empowering users with effective problem-solving capabilities.
