

Aditya verma

Software Engineer | Frontend Development | Java | NBFC Fintech

✉ aditya.verma136893@gmail.com ☎ 9149263421 🔗 LinkedIn 🌐 GitHub

PROFILE

Software Engineer with hands-on exposure to **enterprise-scale NBFC fintech applications**. Experienced in **feature development, defect resolution, and production/UAT support** across **User Access Management (UAM)** and **Instrument Management** modules. Proficient in **React.js, JavaScript (ES6+), and TypeScript**, with practical knowledge of **Redux Toolkit, TanStack Query, and Zustand** for **state and server-state management**. Skilled in **RESTful API integration, Single Page Application (SPA)** development, and building **scalable, reusable UI components**. Consistently delivered **stable, well-tested** solutions within **Agile/Scrum environments** through close collaboration with **QA teams, backend engineers, and business stakeholders**, ensuring **high code quality** and **smooth releases** for **NBFC-grade financial systems**.

SKILLS

Frontend Technologies — React.js, Redux Toolkit, TanStack Query (React Query), Zustand, React Hook Form, Component-Based Architecture, HTML5, CSS3, Tailwind CSS, Material UI (MUI), Chakra UI, Responsive Web Design, Cross-Browser Compatibility, Mobile-First Design, Single Page Applications (SPA), Web Performance Optimisation, Accessibility Basics (a11y), Global & Local State Management, RESTful API Integration, Axios, Fetch API, JSON Data Handling, Error Handling, Loading States, Asynchronous Data Handling

Programming Languages & Core concepts — JavaScript (ES6+), TypeScript, Java, Object-Oriented Programming (OOP), Asynchronous Programming (Promises, Async/Await), ES6+ Features

Backend Fundamentals & Full-Stack Exposure — Node.js, Express.js, REST API Development, API Routing, JWT Authentication (Basic), MongoDB (CRUD Operations), Server-Side Rendering (SSR).

Version Control & Development Tools — Git, GitHub, GitLab, CI/CD Basics, JIRA, Agile/Scrum Methodology, Visual Studio Code (VS Code), Eclipse, Browser DevTools

PROFESSIONAL EXPERIENCE

Qualtech Edge

2024 – Present | Noida, Uttar Pradesh

Software Engineer

- Contributed to **enterprise-grade NBFC fintech platforms**, enabling complete **loan lifecycle execution** covering onboarding, disbursement, repayment monitoring, and operational workflows for **10,000+ internal and field users**.
- Architected and maintained **30+ modular UI units** using **React functional patterns and hooks**, ensuring scalable structure, cleaner code separation, and faster feature extensibility.
- Established efficient **client and server data flow** through **Redux Toolkit, Zustand, and TanStack Query**, achieving **25% faster load times** via intelligent caching and asynchronous request handling.
- Connected frontend interfaces with **backend services** through **REST endpoints** using **Axios and Fetch**, managing request lifecycles, failure scenarios, and structured payload transformations.
- Resolved **40+ production and UAT defects**, strengthening **cross-browser behaviour**, improving responsiveness, and increasing overall system reliability.
- Delivered secure **authorisation mechanisms** within **User Access Management**, configuring **RBAC policies** to control permissions, roles, and restricted module visibility.
- Enhanced **Instrument Management workflows** by building **dynamic form systems** with validation rules and business-driven logic through **React Hook Form**, cutting submission-related issues by **30%**.
- Crafted **adaptive and accessible layouts** with **HTML5, CSS3, Tailwind CSS, Material UI, and Chakra UI**, guaranteeing a consistent experience across mobile, tablet, and desktop resolutions.
- Optimised **render cycles and component efficiency** by refining dependency usage, restructuring UI layers, and improving API consumption strategies for long-term maintainability.

Oasis Infobyte

03/2023 – 05/2023 | New Delhi

Web Developer

- Engineered **responsive web interfaces** using **HTML5, CSS3, and Vanilla JavaScript**, applying semantic markup, layout optimisation, and cross-device compatibility techniques.
- Implemented **client-side interaction logic**, including **form validation workflows, dynamic DOM updates**, and event-driven UI behaviour to improve application usability.
- Participated in the **frontend development lifecycle** involving **requirement analysis, debugging, functional testing, and performance tuning**, adhering to clean code and best practices.

EDUCATION

G L Bajaj Group Of Institutions

2020 – 2024 | Mathura, Uttar Pradesh

B Tech | Computer Science and Engineering

KEY ACHIEVEMENTS

- Player of the Month** – Qualtech Edge for consistent delivery, ownership of critical frontend tasks, and quick resolution of production issues.
- Recognised for **strong analytical and debugging skills** in resolving complex data and logic-related problems
